## Summary

Frontend Developer passionate about crafting **interactive, high-performance websites** using **ReactJS, Tailwind CSS, and GSAP**. Creator of **K72 Creatives**, a cutting-edge website showcasing advanced animations, modern UI/UX, and seamless responsiveness—delivering the kind of web experiences companies love.

## Education

**Yashoda Technical Campus ,Satara DBATU  University, Lonere**  **Aug 2021 – June 2025**
- *Bachelor of Technology in Computer Science |CGPA: 6.81*  *Satara, Maharashtra*

**LBS College Of Science**  **Aug  2020 – June  2021**
*MSBSHSE (Class XII) ,Aggregate: 74%*  *Satara,  Maharashtra*

## Experience

**Octanet Pvt Ltd**  **May 2024 – Nov 2024**
*Software Engineer Intern(Remote)*  *Bhubaneshwar, Odisha*
- Developed an automated service for daily unit testing, speeding up bug identification and resolution.
- Created Python and PowerShell scripts to organize test results and automate code deployment for continuous testing.
- Integrated Jenkins to automate testing and report generation, improving team productivity.
- Designed HTML, JavaScript, and CSS solutions to visualize test results and share daily reports with the team.

**Internship  Studio**  **Apr  2024 – Oct 2024**
*Java Programmer  Intern(Remote)*  *Pune,  Maharashtra*
- Developed and optimized Java applications to improve performance and functionality.
- Collaborated with team to design, test, the and deploy new features.
- Helped troubleshoot and resolve bugs, ensuring smooth application performance.
- Contributed to unit testing and code reviews for high-quality code.

## Projects

**K72 Creatives Website** | Front-End Development, Web Animations  **Aug 2025**
- **Engineered** a cutting-edge, agency-style website delivering a **highly interactive and visually dynamic user experience**.
- **Leveraged GSAP animations** to craft smooth transitions and captivating visuals, enhancing user engagements and retention
- **Architected a fully responsive and performance-optimized** layout with **REACTJS** and **Tailwind CSS**, ensuring flawless rendering across devices.
- **Deployed** on **Vercel** for **lightning-fast load times and seamless live accessibility**, demonstrating production-ready web standards

  Live Project Link

**Go3D Interactive Website** | Front-End Development, Web Animations  **Aug 2025**
- Built an immersive **3D web experience** by integrating **Spline** for interactive 3D models with smooth animations.
- Designed a **fully responsive** and engaging layout, ensuring seamless **UI/UX** across devices.
- Developed with modern web technologies (**React, Tailwind CSS**) and **optimized performance** for fast loading.
- Deployed on **Vercel** for live access and interactive testing.

  Live Project Link

**Rejouice-Inspired Website** | Front-End Development, Web Animations  **Aug 2025**
- Practiced **advanced frontend concepts** by recreating an older **REJOUICE®** design with modern web technologies.
- Implemented **smooth animations** and **transition** using **GSAP**, **Locomotive Scroll**, and **Swiper.js**,
- Ensured **full responsiveness** across devices for an engaging **UI/UX**.
- Built with **HTML,CSS, JavaScript,** and deployed on **Vercel**.

  Live Project Link

**Award-Winning Gaming Website**  / *Front-End Development , Web Design*                    **Nov 2024**

- Designed an **award-winning website** with a focus on dynamic animations and a **smooth**, **intuitive UI** to enhance user experience.
- Crafted **smooth UI** with animations using **ReactJS** and **Tailwind CSS**.
- Focused on a **great user experience** with easy navigation and interactive layout.
- Utilized **ReactJS, Tailwind CSS,** and **GSAP** for **interactive animations** and **seamless transitions**, ensuring **high engagement** and **retention**.
